🎓 Education

2021 – 2025	**University School of Information Communication and Technology**	New Delhi , India
	Bachleor of Technology , Information Technology	

📂 Projects

Weather APP

Designed and developed a weather application that provides real-time forecasts, intuitive user interface, and personalized alerts for users. Implemented features such as location-based weather updates, hourly and daily forecasts, and customizable notifications. Utilized APIs to fetch weather data and integrated advanced algorithms for accurate predictions.
- Implemented location-based weather updates and customizable notifications.
- Integrated APIs for fetching weather data and advanced algorithms for accurate predictions.
- Designed for optimal performance across platforms with responsive UI/UX.
- Provided hourly and daily forecasts for enhanced user experience.

Online Movie App Clone

"Engineered an online movie application clone, replicating popular features of leading platforms. Developed intuitive user interfaces for seamless navigation and content discovery. Integrated robust backend systems to manage user accounts, movie databases, and streaming functionalities. Implemented secure payment gateways for subscription services and seamless playback across devices. Utilized modern technologies and frameworks to ensure scalability, performance, and user engagement.

🧠 Skills

Languages	**Tools**	**Database**	**Tech Stack**
C , DSA in c++ , Python , Javascript , html	Git , Github , VS code	MYSQL , Mongo DB, Firebase	HTML , CSS , JS , React.Js

🎗 Position and Responsibilities

USS ACM (Association for Computing Machinery)
- Planned and Organized Various Events and Programs as a part of HashTech'22
- Mentored Juniors for career guidance in DSA as Club's most active member

Techspace
- Assisted in the development of software solutions for diverse client projects under the guidance of senior engineers
- Contributed to the implementation of features and functionalities, learning industry-standard coding practices and version control techniques.
